

# DUNNE & CRESCENZI

## WELCOME BACK - WE HAVE MISSED YOU

The last couple of months have been challenging and as the country starts to reopen in a changed environment, Dunne & Crescenzi welcomes you back from 29 June.

We are excited about opening again – When you decide to dine with us you will notice some changes at front of house – none us ever envisaged being greeted by Matteo with hand sanitizer! And floor signs indicating customer pathways.

The restaurant will look somewhat different - We have reduced our customers seating by 60% adapting a minimum of 1-meter spacing between tables. Our restaurant is spacious, set out over four rooms, and facilitates safe distancing between you and other guests. The external terrace area is also available to guests and the same spacing practices are being applied in this area albeit with newly planted blooms.

For those of you who anticipate “missing the buzz” of a packed restaurant we hope to make your dining special with treats, great food and fantastic wines. Others of course will welcome the serene side of D&C .

Tables will be limited to parties of 6 guests for the duration of government guidelines. Same household family dining can be accommodated in one of our private dining rooms. Hand sanitizers will be dotted around the restaurant for your convenience, standing as protagonists among the shelves of wine.

Reservations - It has never been the D&C ethos to have set seating time slots – we have always preferred our guests to enjoy a relaxed dining experience, where you can enjoy after dinner drinks at your table long after dessert has been served as conversations continue into the night. However, to enable correct adherence to social distancing protocols we are temporarily introducing set dinner times with set menus as follows: (details of set menus can be located on our website [www.dunneandcrescenzi.com](http://www.dunneandcrescenzi.com))

Early Dinner     3:45 pm – 5:45 pm  
Dinner :            6:00 – 8:00 pm and 8:15 pm – 10:15 pm  
Late Dinner:     10:15 pm – 12:00 am

Reservations online are now live -: [www.dunneandcrescenzi.com](http://www.dunneandcrescenzi.com)

### *Behind the Scene*

At D&C we take pride in our existing cleaning, safety and hygiene standards, which we recognise are even more important now than ever – with this in mind we have re-visited all our procedures and have added a number of new and important protocols. We have engaged the services of the The Food Safety Company to ensure maximum compliance across all areas.

### *Shielding our Staff*

To safeguard staff and ensure a healthy and safe working environment for our team we have implemented the following under the guidance of The Food Safety Company:

- At all times, a trained C19 team leader will be on duty to make sure protocols are adhered to at both front and back of house.
- All staff receive C19 back to work inductions and working guidelines
- Staff have access to a HR assistant for general well-being and referrals
- Daily Temperature and Health checks are
- Separate Staff entry and exit point.
- Staggered start and finish times to avoid high traffic within staff changing areas
- New Kitchen traffic flows and procedures to protect our team and guests
- Off- site laundry service to launder uniforms daily.
- Ongoing internal and external training on new and updated policies and protocols

### *Suppliers and Service Providers*

Over the last couple of weeks we have been vetting our suppliers and service providers to ensure they are as committed as we are in managing the C19 situation.

The whole team at Dunne & Crescenzi has been working to ensure a warm welcome. We would like to thank you all for your support over the last few months and we look forward to raising a glass with you soon!
